

The Data Cloud Company for AWS.

Simplifying data cloud analytics for all users and organizations on AWS.

A Decade of Proven Data Cloud Solutions

Cloudwick is an AWS-certified APN Advanced Consulting Partner and APN Advanced Technology Software Partner offering solutions to power more agile and cost effective cloud data management and analytics on AWS. Founded in 2010 in Newark, CA, Cloudwick has earned five AWS Competencies, and has over 140 technology professionals with 400+ Big Data certifications and over 100 AWS Certifications serving customers throughout the US, Canada, EMEA, and APAC.

Cloudwick's Professional Services and SME Augmentation Services provide organizations with trusted, high impact data and analytics strategy, migration, and modernization outcomes.

60+ AWS Services Unified in ONE Self-Service SaaS Solution - Cloudwick's Amorphic SaaS Data Cloud

Developed as a result of witnessing customers struggle to manage their data workloads and analytics pipelines, Cloudwick's Amorphic SaaS Data Cloud was launched in 2020 as a fully-managed AWS ISV Certified software solution to streamline data management and enhance the AWS user experience. The Amorphic SaaS Data Cloud natively integrates more than 60 AWS Data and Analytics Services with a single easy-to-use interface that provides SaaS-enabled self-service capabilities to automate and simplify the AWS user experience with their data and analytics workloads.

With Amorphic, organizations can securely migrate data and modernize analytics with zero IT development or support, enabling IT teams, data analysts, line of business professionals and data scientists to immediately access all their data in a single location. Amorphic offers an Intelligent Data Catalog, automated IAM and RBAC, Advanced Analytics options, and visualization through Amazon QuickSight or third party visualization tools, enabling users - from StartUps to Public Sector and Enterprise - to more easily gain better insights using the AWS Modern Data Analytic stack.

Available on AWS Marketplace and through APN Select Resellers

Cloudwick's Amorphic SaaS Data Cloud and its Professional Services are available direct, on the AWS Marketplace and through select APN Resellers throughout North America, EMEA, and APAC. Cloudwick is AWS MAP Certified and ISV Accelerate Certified.

"I needed an AWS Solution Provider that understood Oil & Gas and could provide a new AWS data and analytic platform for modernizing BKV's pipeline operations and business analytics. In just 7 months Cloudwick had completely migrated and modernized our infrastructure, data and systems into Amorphic and AWS allowing my IT and Data Teams to act on our data faster, easier and with better insights driving better business visibility and performance."
